Basically we require to make a website which can book tickets of flight and train .In this we are making 7 page which are following

1. home page
2. train book page
3. flight book page
4. login page
5. payment page
6. contact us
7. my account page

1. home page:- in this page basically be the first page which will be open when any user will open our website and it will have various button which will direct user to various page like book train/flight page or contact us page or login page or my account page
2. train book page:- in this page user will book ticket for train and go to payment page
3. flight book page:- in this page user will book ticket for train and go to payment page
4. payment page:- in this page user will get various option for payment method
5. login page:- in this user will login by entering email id and password
6. contact us:- in this page user will get various option to contact us to solve there query or doubt or any problem
7. my account:- when user will login they can see there personal information and there flight or train booked ticket or history of booking

Languages we are going to use for making this website are:

- * HTML
- * CSS
- * JAVASCRIPT

HTML- full form is hypertext mark-up language is the standard language for documents designed to be displayed in web browser. It can be assisted by technologies such as cascading style sheets and scripting languages such as java script.

CSS- cascading style sheet is a style sheet language used for describing the presentation of a document written in a mark-up language like html. Css is designed to enable the separation of presentation and content including layout, colours and fonts.

Now using these two languages we are going to make our website on online tuck shop.

Notepad- it is the platform on which we will code our website

WORK DIVISION

Aryan- payment page, my account, login page

Harsh- home page, contact us

Aadarsh- book train page, book flight page

Following page was divided in the above given way

And report file and synopsis were made partially by each of us.
